NOTICE OF ALLOWANCE

This is a Notice of Allowance in response to the Amendment filed 1/3/2007.

Claims 1-19 were previously examined.

Claim 15 is cancelled.

Allowable Subject Matter

Claims 1-14 and 16-19 are allowed. Renumbered Claims 1-18 in the final order.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

During a telephone conference, the Examiner agreed that the claimed limitation of "disturbing" is internal within a receiver as suggested by attorney for Applicant, which is incorporated in the claims, as currently amended.

The prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious the claimed invention, including among other limitations, "disturbing internally a running variable in a dosed control loop of a data recovery circuit (DRC) while the DRC is processing a received test signal" and "disturbing internally a recovered clock phase of a receiver to simulate an effect of jitter in an input signal being processed by the receiver", as recited in the independent claims 1 and 8, respectively.

Also, the prior arts of record taken alone or in combination fail to teach, anticipate, suggest or render obvious the claimed invention, including among other limitations, "injecting jitter internally into a running phase of a closed control loop in a data link receiver of an integrated circuit device" and "an offset control unit with an input

for a programmed test parameter and an output to force one of an advance and retard via the advance or retard generator", as recited in the independent claims 11 and 17, respectively.

Consequently, Claims 1-14 and 16-19 are allowed over the prior arts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
